

Profile

- Full Stack Software Engineer with 11+ years of experience delivering scalable, cloud-native, and high-performance applications across domains like E-commerce,
- Agentic AI, Healthcare, IoT, Cybersecurity, and AdTech. Skilled in Spring Boot, Micro services, React.js, Angular, AWS, Kubernetes, and CI/CD pipelines.
- Passionate about performance optimisation, modern UI/UX, and GenAI tools.

Professional Experience

Freelance Contractor – Direct Client (Aug 2023 – Present)

****Tech Stack:**** Agentic AI, Spring Boot, Micro services, Kubernetes, AWS, SAP Hybris, React.js, Claude Code,, Next.js, Jenkins, Kafka, Prometheus

- Integrated Spring Stomp for real-time messaging in chat and video apps.
- Used ArgoCD and Jenkins for deployment automation.

Lead Software Engineer – Persistent Systems (Jul 2021 – Jul 2023)

****Projects:**** USC Portal, Cyrev, Aerios Healthcare, Interstate Batteries

- Designed micro services and admin dashboards with Spring Boot + React.
- Implemented role-based access control (RBAC), sockets, and WebRTC integrations.
- Built CI/CD pipelines, integrated D3.js for advanced visualizations.

Software Engineer – YASH Technologies (Jan 2019 – Jan 2021)

****Projects:**** Dealer Locator, Configure Build Your Own (John Deere)

- Built location-based dealer search apps using Spring Cloud, Google Maps API.
- Integrated AngularJS and React in large-scale micro services architecture.

Associate Software Engineer – Bonzai Consulting (Mar 2018 – Dec 2018)

- Developed browser-based creative games using Spring Boot, Angular, Box2D, Phaser.js.

UI Developer – IMMPPLY India Tech / AnnexCloud (Nov 2015 – Feb 2018)

- Created e-commerce loyalty and review systems using JavaScript, Smarty, MySQL.
- Integrated social media APIs and implemented gamified user dashboards.

Education

Jit Borawan Kharegone – B.E in Computer Science & Engg. -2015 (RGPV Bhopal)

Skills

Front End Technologies:-

- Javascript, css3, jQuery ,Bootstrap3, Html5, Templating, LESS, SCSS, Cross Browser Compatibility Responsive Web Design, Accessibility Typescript, , ES6, DS, ANGULAR 9, 13,, Angular.js 1.x, TypeScript, React.js 17, Redux, Next.js, Server Rendering, D3.js, High Charts, Phaser.js, Angular Material, KendoUI React, Bootstrap

Back End Technologies:-

- Aws EC2, Hibernate ORM, Spring Security, java 8, java 21,JSP, Servlet, Spring Boot, Jpa, mybatis
- Docker and Kubernetes, Micro services, Aws, Socket programming

Databases :-

- MySQL, Oracle 10g, MongoDB, Dynamo DB, Postgres

Build/Deployment Tools:-

- gulp, Webpack, Bebel, Docker, Kubernetes, SVN, Git, Gitlab, Bitbucket, Jenkins, AWS, App Dynamic, Gafana, kibana,

Professional Summary

HOSPITAL MANAGEMENT (2022-2024):-

Contributions:

- End to End Development of Backend and frontend video call and chat modules design using spring boot rest api and react.js, redux, voyage video call integration, ci-cd pipeline jenkins, java 21.
- Used Spring stomp protocol for Socket broker messing system, Sql.

Brief Description of Project:

- We have designed two modules text chat applications and video call integration with voyage webrtc communication for message sharing between multiple users and setting up meetings.

CYREV (2022-2023):-

Contributions:

- Backend and frontend modules design using spring boot rest api and react.js. d3.js charts, java 21, Jpa, junit 5, mockito, ci-cd pipeline jenkins.

Brief Description of Project:

- Application detects ransomware attacks and keeps backup of vm images,

USC PORTAL (2021-2022):-

Contributions:

- Created Components, Angular Material UI, Created api and integration.

Brief Description of Project:

- It has most of the features same as social networking site for use of intuitions. It runs admin portal separately.

INTERSTATE BATTERIES (2022-2023):-

Contributions:

- Managed jsp and back office of SAP Hybris Commerce, debugging, product Enhancement

Brief Description of Project:

- E-commerce site selling batteries, loading trucks.

AERIOS HEALTH CARE (2021-2022):-

Contributions:

- Created Components, Implemented Kendo React UI and Api.

Brief Description of Project:

- Health care, it has various modules like appointment schedule, new request, patient module, user module.

DEALER LOCATOR - JOHN DEERE (2019-2021):-

Contributions:

- Designed rest Api which fetch dealer details based on lat and long, ci-cd pipeline jenkins.
- Google Map API Integration, spring boot, aws, dynamo db, java 8, junit 4, mockito, hibernate, Spring Cloud Config Server micro services, React 16

Brief Description of Project:

- Users can find dealers nearest to him, and filter as per industries,
- hotspot functionality on click of pins on map.

CONFIGURE BUILD YOUR OWN - JOHN DEERE(2019-2021):-

Contributions:

- backend rest api design , debugging and integration, Enhancement Tech- Angular.js1.4 and java 8, junit 4, mockito, hibernate, spring mvc, ci-cd pipeline jenkins.
- Created Components, Google Map API Integration, ci-cd

Brief Description of Project:

- User can customise the machine's attachments, resolve compatibility of attachments and then quote is sent to selected dealer. developed using React 16

EAST SPRING (2018):-

Contributions:

- Implemented box2d physics engine, created body of obstacles and road map, Implemented device motion API.

Brief Description of Project:

- Car racing game for East Spring that runs on mobile browser and web views, allows users to control movement of cars based on device motion.

LOYALTY , RATING AND REVIEW WEB BASED PRODUCT (2015-2018):-

Contributions:

- Configured task runner for ES6 and LESS, implemented libs for star rating, Animation Effects, java 8, NetSuite, mysql
- E-commerce site of use Featured with javascript loaded products, created loyalty dashboards using mysql,
- Designed html templates, pagination

Brief Description of Project: Product Name:- .

- loyalty visitor can share product on social media FACEBOOK, twitter, email, PINTEREST, TRACKABLE connect buttons:-user gets points on his/her actions defined as per requirement, on specific point threshold he can claim for reward/gift.
- We provide a loyalty dashboard. After claiming he gets a coupon code. getting reviews about a particular product whether helpful or not.
